SUPERINTENDENT OF SCHOOLS — MR. THOMAS A SCHIRMER

MEDINA BOARD OF EDUCATION

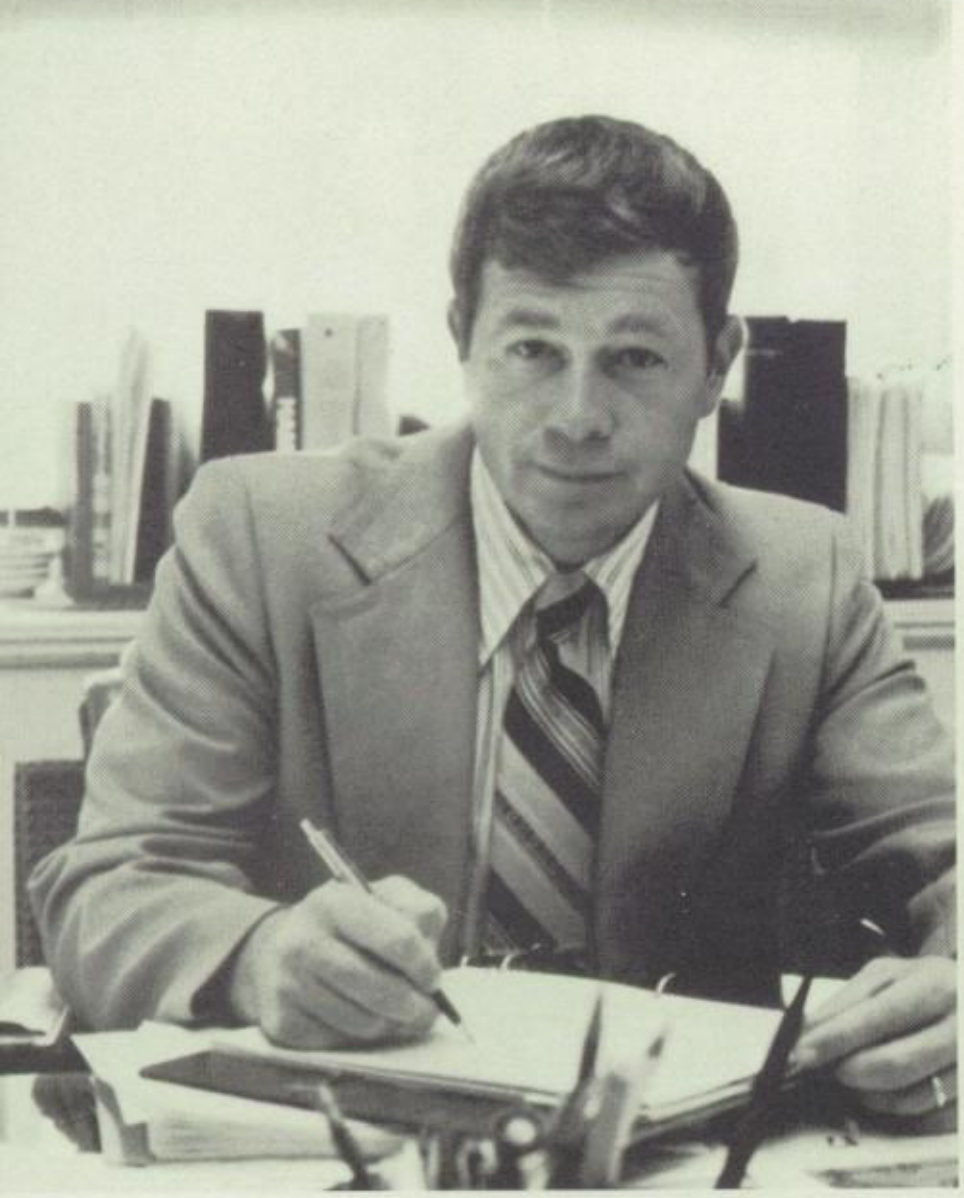
Board of Education

FRONT ROW: (L to R) Mr. David Webster, Mr. Thurston Dale, Mrs. Barbara Cotriss, Mr. Michael Ferri. BACK ROW: Mr. Frank Messore, Mr. Glenn Klotzbach, President, Mr. Lee Blackburn.

Mr. Nunzio T. Maiorana
Director of Secondary Education

This, being your last year in high school, may very well be the most important time of your life. Your habits, attitudes, and understanding are brought into focus and strengthened for you to utilize in the world after high school. Some of you will go on to higher education and others will immediately enter the work force, but rest assured, you have an excellent start — your collective successes, academically and athletically serve as testimonials to that — but only you as an individual can make a complete success of it. You cannot rest on past successes or dwell on past failures. Life can be an adventure-filled experience or, it can be a drudgery. It's all up to you. Just keep in mind that success if failure turned inside out.

Graduates, my sincere best wishes to each and every one of you in the years to come.



Mr. Frederick E. Snyder
Principal, Medina Senior High School

The graduates of 1981 will experience a technological revolution perhaps even more drastic than the Industrial Revolution. The "Golden Age of Electronics" is upon us. We are bombarded by electronic machines, games and computers. The effect on your lives will be considerable at a time when we are all required to adjust to an already rapidly changing society. This era should be an exciting one with its new careers, innovations, and the potential for a better quality of life. I hope that Medina High School has prepared you for the many changes you will experience. Good luck and best wishes.

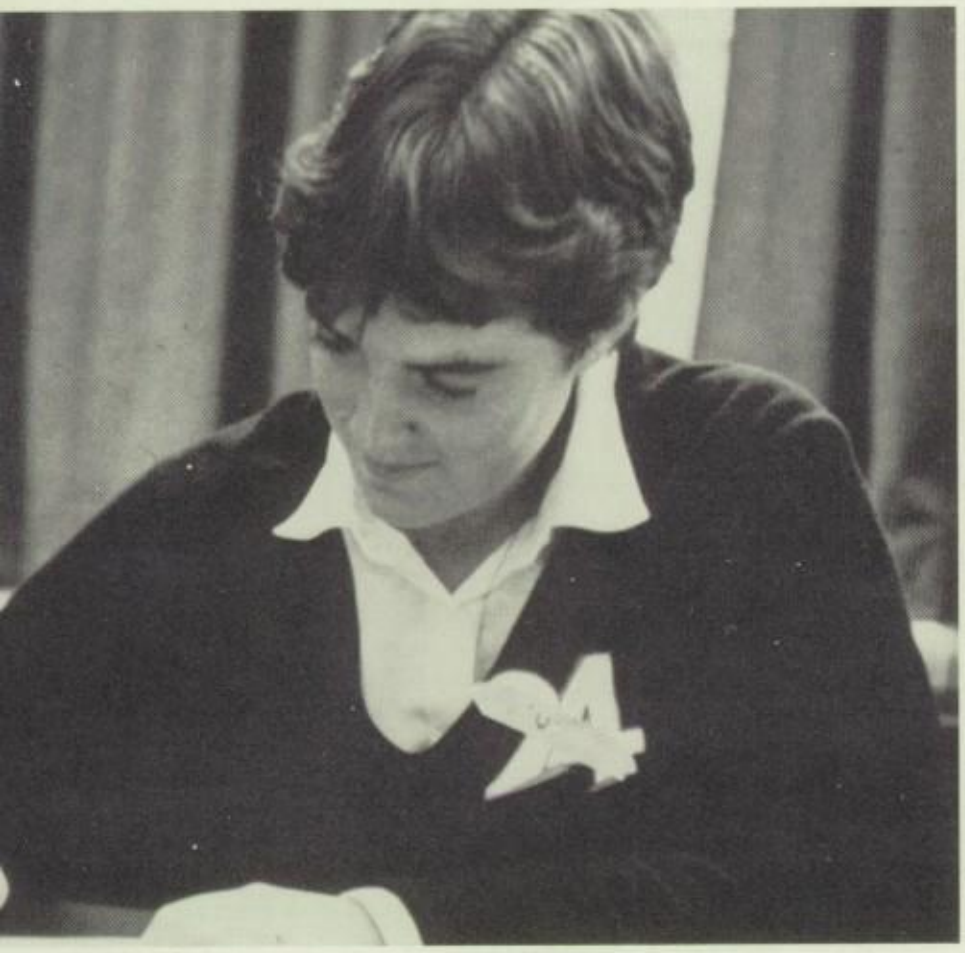
I'll never forget my American experiences which were so enormous and great.
I'll never forget how awfully difficult and hard it could be during this year.
I'll never forget the way I played field-hockey here, the many friends I made, and where I learned how great it is to play 3 times a week, but how terrible it is to stop after 2 months.
I'll never forget my locker, who never wanted to listen to me, and always stayed locked.
I'll never forget the studie-hall that made me feel as if I was in prison, but above all.....
I'll never forget all the people who helped me by these experiences.
That's why I want to thank everybody who helped me by making my dream come true.

Thank You !!

love Justien



The time I've spent here in Medina have realy been great. I've learned a lot of new things, and met a lot of new people that I really will miss when I go home to Norway. The first two-three days of school were really hard. Everybody talked so fast, and everybody was running. I'm used to a 10 min break between every period so those 3 min were short in the beginning. (Especially when I couldn't get my locker open) But when you get used to it, it realy isn't that hard.
At the end I just whant to thank everybody who has made it possible for me to have this great year.

Love Inger.

My AFS experience is to make friends and have a good time learning about the U.S.. Also my AFS experience is to help me get to know myself better at each stage of the US experience.
School participation is a major part of my experience here. I am very glad to be in Medina High School, because the people, my classmates and teachers are very friendly and approachable. They always help me.
I really am happy because I am having this opportunity to spend the whole year in Medina High School.
Here, all of my wishes for this year are going to be complete: this year will be one unforgatable year in my life. I want to say thank you to all my friends and teachers for making this year such a great one

love Oliana

ADVISOR'S PAGE

The 1981 Mirror would not be complete without acknowledging some of the people who helped us out when we came up short. Dale Cameron was always helpful in developing pictures in an emergency. Mike Wertman and Don Cook of the Medina Journal Register were always cooperative. The athletic department and coaches were tolerant of us when we disrupted practices with picture taking. The faculty accepted the disrupted schedule for assemblies and photo days. A really special Thank You must be given to the fine patrons of the Medina area whose gracious support helped make this book possible.

I want to thank the staff who worked very hard to make this book a reality. They made many sacrifices in order to put together the best yearbook they were capable of creating. Their effort is a tribute to the young people we have in Medina today.

The 1981 Mirror is you, the administration, the faculty, the staff, the patrons, but most of all, it is you, the student body of M.H.S. People always ask if it is difficult to put together a yearbook. Look at some of the faces on this page, the material we have to work with, and I'll let you be the judge.

The 1981 Mirror staff sincerely hope that you will treasure and enjoy this 1981 edition of the Mirror. In it are the memories and moments that helped make this school year a great year. A year you will never forget.
